

Parents Involvement Policy

Christine Harris is our Parent Co-ordinator who has attended PEAL training.

In the setting we recognise that the parent is the primary most important career in the child's life

We are dedicated to working in partnership with Parents/Carers to ensure we provide the best possible wrap around care for each individual child.

To achieve this aim we:

- Ensure parents feel valued and welcome at all times
- Provide settling in visits up to a period of time till the child and parents are settled and happy
- Provide a parent's pack outlining some of our most important policies and procedures.
- Provide an induction for all new parents
- Provide a key worker to provide ongoing support
- Provide opportunities for parents to volunteer
- Share information and provide regular updates on their child's progress
- Allocate time for parents to attend the setting to discuss their child's progress
- Provide regular home link information on what is happening within the setting during their absence. (Activities, Visitors etc)
- Provide regular opportunities for them to attend sessions or have an input into the planning of sessions.
- Provide a comments book for parents to comment on our setting and its practices
- Provide updates on changes in legislation
- Provide support with parenting issues
- Provide training opportunities for parents
